## **VALEDICTION -- A Novella**

By Jacob Strunk

Seven Miles West of Town Productions

Sometimes we understand our own stories best by comparing them to someone else's. Jacob Strunk's *Valediction* tells the story of Ellen Williams who returns to Maine following the unexpected death of her sister. Strunk unfolds loss after loss, revealed in layers. I especially recommend his story to anyone looking at how circumstances push human beings into actions that cause headlines.
